THE MARKETS.

Wall Street Review. New York, Ang. 16.—The setback in prices which occurred today while influenced in a measuretire by the less favorable aspect to the strike situation, was primarily due to profit taking sales on the week's rise. The western and Pacific stocks, which had made the largest gains re-cently, had to take the brunt of the selling. But little rallying power was displayed by those stocks at any time during the day, temporary gains being immediately cancelled by renewed sales for both accounts.
